

Jamestown Settlement Museum

Where: 2110 Jamestown Rd, Williamsburg, VA 23185

What: CyberTouch PCAP Touch Engine- Moto 4x1 55" Landscape

The Jamestown Settlement Museum in Jamestown, VA has just opened the 'Pocahontas Imagined' Exhibit where visitors can learn about the history of Pocahontas and the effect she left on Jamestown and Virginia as a whole. Visitors are brought through an experience of learning through a CyberTouch Moto touch engine. This Moto Engine utilizes four ultra-narrow bezel 55" monitors with a monolithic piece of safety glass and projected capacitive touch technology. This 16-foot CyberTouch touch table was specifically engineered with a thermal heat management system and is designed to be run 24/7 inside of custom millwork. Along with custom hardware, CyberTouch also collaborated with software developer to ensure proper functionality prior to final installation.
